# FINE PERENNIALS

THE JOSEPH F. MARTIN CO.

PAINESVILLE, OHIO

*Wholesale Only*

THE JOSEPH F. MARTIN COMPANY

Growers of Fine Perennials

PAINESVILLE, OHIO

Dear Friends:—

Come what may in the future, and with all due respect to the past, these are glorious todays. Long suffered for and now so gratefully acknowledged a fact, we all are a little breathless with the good news of the recent weeks. For all of us, years of longing and difficulty are now complete, and, though memorial memories will always live with us, we chart our course on the brighter path so magnificently won.

Though the toil of the war years quite necessarily stands evident in our fields, it is with a lilt in our hearts that we enter this season. We feel sure that our fine family of trade friends felt the same toward our endless effort and sincerity that you felt for our performance when we were able to render it, and you were able to make comparisons on a competitive market.

You may be sure that we are grateful for the many considerations accorded us. We have never been without appreciation for your many favors, and, now that the labor and supply situation should be soon relieved, every ounce of power that we can muster shall be directed to the return to our normal standards of quality, exclusive variety, and service.

For this fall, our list is yet in its reduced form, but you can't help but find in it a host of items, particularly those that are most valuable to us all, that we do have in good supply and quality. We solicit your interest and promise that it will be taken care of if long hours of work and a sincere desire to please will have it so. Thanks again, good friends, and let us hear from you.

Cordially yours,

THE JOSEPH F. MARTIN COMPANY

IRIS KAEMPFERI

THE MODERN ORCHID OF THE GARDEN

The tremendous, vividly colorful flowers borne in stately dignity on plants of splendid decorative character have, by their impressive summer show, earned for the Kaempferi Iris a substantial place among the most popular garden plants. Each year sees a greater demand; yet, we are confident that their acceptance is just in its infancy. June and July know no other plant that will surpass the beauty of these Oriental gems.
